Materials & care

- **Dining chair, lounge chair & lounge sofa:** acrylic rope on a powder coated aluminium frame.
- A quick wash with a non-foaming mild detergent every three months will do the trick.
- To clean spots on the rope: apply a mist of a soapy water solution with a spray bottle and then work the solution into the rope with a soft cloth by patting or rubbing lightly. Rinse the solution thoroughly and then blot excess moisture from the rope using a soft cloth and allow air-drying.
- Protective covers are available.
- **Table:** Untreated teak table top on a powder coated aluminium frame
- Left outdoors, the colour of untreated teak will change to an attractive silver grey, aided only by an occasional wash with warm soapy water in order to discourage moss.
- You can either leave your teak furniture to go a beautiful silver grey, or choose to oil them.
